

COR-TEN® WEATHERING STEEL OVERHEAD DOORS

Steel That Ages with Striking Beauty

Why Choose Cor-Ten® for Your Garage Doors?

- High-strength steel with outstanding longevity
- Develops a rich, protective rust patina with age
- Every patina is unique, shaped by the elements
- Naturally corrosion-resistant and durable
- Low maintenance, high visual impact
- Clear-coated to preserve the look you love — A topcoat can be applied at any stage to lock in the desired patina and ensure long-term visual consistency.

Precision-Built Doors for Homes and Businesses

With our extensive background in construction, and our wide range of designs, materials, and customization options, **we tailor each garage door to suit your unique preferences and requirements.**
