### Steel Siding That Looks Like Wood

Give your projects the warmth of timber without the upkeep. Our high-res wood prints capture every knot and patina in detail, offering the beauty of traditional wood siding with all the benefits of premium steel. Roll-formed in Post Falls, ID from recycled steel, these panels cut emissions and lifetime costs while standing up to any climate.

These color samples are as close as possible to the actual colors offered. For precise color matching, please refer to metal samples.
